Huang, Chin-San

2010/10/23

1. Alarm by Morakot

- Land Slide, Mad flow, Flooding and Inundation.
- Reservoir Silting, Water Shortage.

2.Design Criteria

- Overtopping
 - 2nd Flood Zone
 - Non-Structural Measures

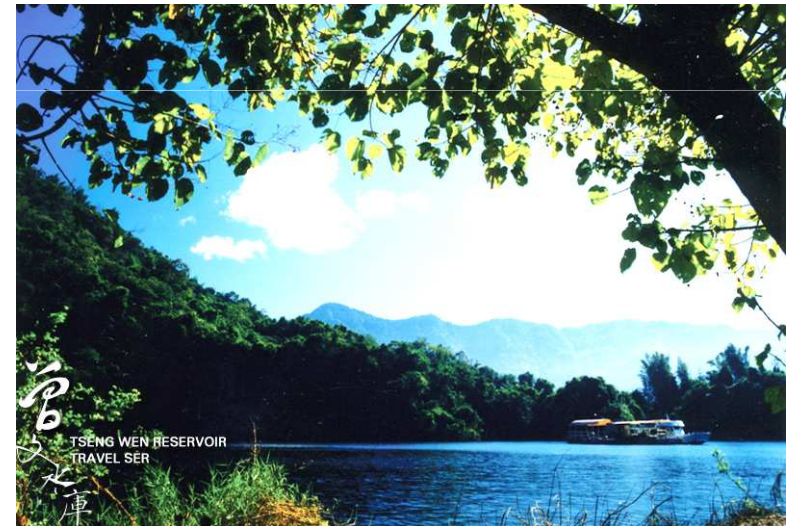

3. Water Shortage and Safety of Food Grains

- Adaptation of Crop Pattern
 - One Rice and One Up-land Crop
 - Rotational Pattern of Paddy Rice and Up-Land Crop

4. Conclusion

- Accordance with the nature
- Paddy Rice during wet season, up-land crop during dry season.
- Live with the flooding and inundation

Thanks for
Your patience
